Business Profile Information

Does the facility participate in any government, local customs, or World Customs Organization (WCO) accredited facility security program?	No
Does the facility hold a Government Supply Chain Security Certification?	No
Has the facility been reviewed or audited by this program?	Yes
Primary Industry of Operations	Hardlines
Product Type / Commodity	Hardware and daily products such as levelers, swivel glides, felt mat, etc.
Year Established	2005
Grounds Size (Square Meters)	30000
Number of Buildings	2
Facility Size (Square Meters)	69000
Number of access points? (i.e. gates, exterior doors)	1
Hours of Operation	8 hours, 8:00-12:00 and 13:00-17:00
Number of Employees	101 - 500
Number of Contract Employees	0
Number of Inhouse Security Guards	0
Number of Contract Security Guards	4
Number of Migrant Workers	0
Annual Revenue	10 - 50 Million
Does the facility outsource any manufacturing services?	Yes

Company Name	Contact Email	Contact Email	Percentage of time
Yuyao Tianyun Electroplating Co., Ltd.	Mr. Xu Yuncai	Not provided	100

If yes to outsourcing any manufacturing services, please describe services outsourced and country location.	Electroplating, China
What countries does this facility export to?	America, Europe
Does this facility have affiliate locations where any work is conducted or product	No

stored?

Does the facility outsource any transportation services?

Yes

Company Name	Contact Email	Contact Email	Percentage of time
Ningbo Longna International Logistics Co., Ltd.	Mr. Song	Not provided	100

Does this facility partner with any sales agent or vendor representatives?

No

Audit Responses

Audit Assigned
Feb 29, 2024

Due Date
May 11, 2024

Overall Compliance Score
98%

General

100%

1 **None** Does the business license match the current location name and address as listed on the audit sheet? Please attach photo of business license.

- Yes
 No

[#1 Business License.jpg](#)

Comments: No comments were provided

2 **Must** Is there a primary point of contact (POC) identified regarding security matters?

- Yes
 No

Comments: No comments were provided

3 **None** Did the auditor review previous SCAN audit CAPAs in preparation of this audit?

Only select NA if there was not an audit previously conducted with CAPAs assigned.

- Yes
 No
 NA

Comments: No comments were provided

4 **None** During the current audit, were all previous CAPAs found to have been appropriately addressed/ mitigated as per the CAPA instructions provided?

- Yes
 No

Comments: Some previous CAPAs were found not appropriately addressed/mitigated as per the CAPA instructions provided.

5 **Critical** Has the audited location recently (within the last 60 days) participated in the free SCAN Factory and Supplier Training provided in advance of this Audit?

- Yes (please attach photo of training certificate)

No

[#5 SCAN training c... jpg](#)

Comments: The SCAN Security and Threat Awareness Training was conducted on May 5, 2023 by Ms. Fan Xiuli / Admin director, and the certificate was provided for review.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: This training must be completed. Please attach the completion certificate as evidence as well as define who was in attendance of the training session.

CAPA Guidance: If the audited location had not participated the training, leadership should follow the link "<https://scriskolutions.zendesk.com/hc/en-us/articles/4602286708627-SCAN-Factory-and-Supplier-Online-Training>" to enroll the training and complete it.

CAUTION: Selecting option "Will not implement/ will not comply with corrective action request" is indicating that you acknowledge that your final score for this question will lose points and may be negatively viewed by SCAN Members.

- Already implemented
 Will not implement/ will not comply with corrective action request

[Certificate262757-... pdf](#)

Comments: Arrange relevant personnel to attend training and obtain certificates

Acceptance Comments: Accepted

- 6 **Material** Has there been a Social Compliance or Responsible Sourcing Audit in the last 24 months that addresses the facility's employment practices?
- Yes -- please provide audit date, audit firm who conducted audit, and audit score
 No -- Audit Report on file is older than 24 months
 Never/no record

Comments: The latest social audit was conducted on August 9 to 11, 2023 by TUV with C grade.

Risk Assessment

100%

- 7 **Must** Does the facility have a risk assessment that identifies vulnerabilities in the business plan?
- Yes
 No

Comments: *No comments were provided*

- 8 **Must** Is the facility risk assessment shared with business partners and contractors?
- Yes
 No

Comments: No evidence was provided to prove that the factory shared the risk assessment to their business partners and contractors.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: Implement a process in which your organization shares the risk assessment with your business partners and contractors.

- If you have already implemented, please describe in the comment section when and how you completed the corrective action or implemented the process. Please attach a photo of the process with the title and description of document.

- If you will implement, please provide your corrective action plan and the timeline (future date) for completion and implementation of the process in the comment section.

CAPA Guidance: It is a good business practice to share your risk assessment with both your business partners, suppliers, and vendors to allow for coordination of corrective actions and business continuity planning. The risk assessment must include at a minimum:

- list of all primary vendors and suppliers
- how these vendors/suppliers are impacted by possible vulnerabilities/risks
- What role vendors/suppliers play in facility's preventative/corrective actions
- date of when risk assessment will be or was shared

Comments section must include actions completed or to be taken. If attaching a document, please explain which page will be the start of your process.

CAUTION: Selecting option "Will not implement/ will not comply with corrective action request" is indicating that you acknowledge that your final score for this question will lose points and may be negatively viewed by SCAN Members.

- Will implement
- Will not implement/ will not comply with corrective action request

[业务合作伙伴实施... pdf](#)

Comments: 1、 Revise procedures for the organization to share risk assessments with business partners and contractors.

2. The risk assessment was completed and shared with business partners and subcontractors by relevant personnel on May 22, 2024.

Acceptance Comments: Accepted

- Already implemented
- Will implement
- Will not implement/ will not comply with corrective action request

[业务合作伙伴实施... pdf](#)

Comments: Revise procedures for the organization to share risk assessments with business partners and contractors.

Reopen Comments: Please confirm in the comments area that your risk assessment has been shared with business partners and contractors already, with date of implementation provided.

9 **Material** Does the facility risk assessment include vulnerabilities specific to contracted service providers such as contractors, seasonal employees etc.?

- Yes
- No

Comments: *No comments were provided*

- 10 **Must** Is the facility risk assessment updated periodically?
- Last update within the past 12 months
 - Last update between 12 months and 18 months
 - Last update between 18 months and 24 months
 - No updates noted or last update greater than 24 months ago

Comments: *No comments were provided*

- 11 **Material** Define the facility's cargo movement management process. (Select all that apply)

Only select NA if the cargo movement is not managed or facilitated by the facility.

- A written cargo process map is available
- The cargo process map includes transit times from origin to final container yard
- The cargo process map includes locations where freight may be at rest
- No written cargo process map is available
- NA

Comments: *No comments were provided*

- 12 **Material** Define the facility's crisis plan. (Select all that apply)

- Documented crisis plan available
- Crisis plan includes reporting crisis-related issues to business partners as necessary
- Crisis plan includes alternative locations if facility is rendered unusable
- No documented crisis plan available

Comments: It was noted that the crisis plan did not include the alternative locations if facility is rendered unusable.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: This is a best practice. Please consider developing and sharing your facility crisis plan as this may become a requirement in the future.

If you have already implemented, please describe in the comment section when and how you completed the corrective action or implemented the process, and upload the photographic evidence of completion. Otherwise, please comment that you acknowledge your consideration of implementing this process in the future.

CAPA Guidance: It must be included in your crisis plan below listed information:

- Define types of crises
- Information on how the facility responds to each type of crises
- How facility communicates crises to affected business partners
- Information on alternate locations that would be used should the facility be rendered unusable due to crises

- Already implemented
- Acknowledged - Will consider implementation in future

Comments: 1、 Organize related personnel to revise the crisis plan of the facility and arrange the implementation.
2, the company's alternative address location: Yuyao City Lizhou Street Rongda Road No. 26, Zhejiang Huidelong Household Products Co., LTD. Opening date: 2024-5-20

Acceptance Comments: Accepted

- Already implemented
- Acknowledged - Will consider implementation in future

Comments: Organize related personnel to revise the crisis plan of the facility and arrange the implementation.
Reopen Comments: Please update your crisis plan to include alternative locations if facility is rendered unusable, then provide detail address of the alternative locations for production in the comments area, with implementation date provided.

Business Partner Requirements

100%

- 13 **None** Does the facility contract services such as security, transportation or manufacturing labor?
- Yes
 - No

Comments: *No comments were provided*

- 14 **Must** Does the facility review and provide copies of security criteria to business partners, particularly those that support international supply chain activities?
- Yes - Security criteria reviewed and provided in local language
 - Yes - Security criteria reviewed and provided in English only
 - Yes - Security criteria is reviewed but not provided to business partners
 - No - Security criteria is not reviewed with all business partners

Comments: *No comments were provided*

- 15 **Must** Does the facility have written procedures used in the selection of business partners including: material suppliers, manufacturers, and logistics service providers? (Select all that apply)
- Documented screening process is available
 - Screening process is done on an annual basis
 - Screening process includes looking for evidence of money laundering and terrorism funding
 - Screening process includes monitoring for financial stability
 - No screening process takes place

Comments: It was noted that screening process did not include the checking on the money laundering and terrorism funding.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: Develop written procedures for the selection of business partners.

- If you have already implemented, please describe in the comment section when and how you completed the

corrective action or implemented the process. Please attach a photo of the process with the title and description of document.

- If you will implement, please provide your corrective action plan and the timeline (future date) for completion and implementation of the process in the comment section

CAPA Guidance: The procedure must include at a minimum:

- verifying business profile; verifying financial status; assessing ability to accomplish proposed/contracted business; standards for employee hiring; security training

- key risk indicators for money laundering and terrorism financing must be used to identify suspicious cargo shipments when reviewing documents' legitimacy, which includes but isn't limited to: originate from or have unusual destination locations, are paid by cash or a certified check, use unusual routing methods, exhibit unusual shipping/receiving practices, provide vague, generalized, or a lack of information

Facility must include in their procedure how they communicate selection requirements with their business partners

Comments section must include actions completed or to be taken. If attaching a document, please explain which page will be the start of your process.

CAUTION: Selecting option "Will not implement/ will not comply with corrective action request" is indicating that you acknowledge that your final score for this question will lose points and may be negatively viewed by SCAN Members.

[第六十八章 供应... pdf](#)

Comments: Organize relevant personnel to revise procedures and formulate procedures and requirements for the selection of business partners, including material suppliers, manufacturers and logistics service providers.

Reopen Comments: Please update your screening process to include looking for evidence of money laundering and terrorism funding, describe how and when you implemented the process in the comments area.

16 **Must** Are the facility's contracted business partners required to conduct an annual security risk assessment of their operation?

- Yes - Annually
- Yes - every 2 years
- Yes - At time of contract initiation only
- No

Comments: *No comments were provided*

17 **Must** Does the facility require business partners to provide a statement of compliance or complete a questionnaire highlighting CTPAT Minimum Security Requirements that are in place? Is the statement or questionnaire renewed annually? (Select all that apply)

- Compliance Statement and/or Security Questionnaire required
- Renewed annually
- No

Comments: *No comments were provided*

18 **Must** If there are areas of non compliance found on the questionnaire, does the facility require corrective action plans from the business partner with evidence of implementation?

- Yes
- No

Comments: No evidence was provided to prove that the factory required corrective action plans from the business partner with evidence of implementation.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: Develop a written procedure that highlights in the event that your business partners do not adhere to areas of the security requirements that are required, they must complete a corrective action plan (CAP/CAPA) or timeline to bring compliance up to date.

- If you have already implemented, please describe in the comment section when and how you completed the corrective action or implemented the process. Please attach a photo of the process with the title and description of document.

- If you will implement, please provide your corrective action plan and the timeline (future date) for completion and implementation of the process in the comment section

CAPA Guidance: The corrective action plan must include at a minimum:

- timeframe given to business partners to make corrective actions found on security questionnaire/self-audit
- criteria for issuing a corrective action plan to business partners
- criteria for evidence demonstrating implementation

Comments section must include actions completed or to be taken. If attaching a document, please explain which page will be the start of your process.

CAUTION: Selecting option "Will not implement/ will not comply with corrective action request" is indicating that you acknowledge that your final score for this question will lose points and may be negatively viewed by SCAN Members.

- Will implement
- Will not implement/ will not comply with corrective action request

Comments: 1、 Develop a written procedure that highlights in the event that your business partners do not adhere to areas of the security requirements that are required, they must complete a corrective action plan (CAP/CAPA) or timeline to bring compliance up to date.

2、 2, the company stipulates that when the business partners need to formulate corrective measures within 12 hours to submit to our company, and within 5 working days to provide proof of the implementation of the evidence standard, implementation date: 2024-5-20

Acceptance Comments: Accepted

- Already implemented
- Will implement
- Will not implement/ will not comply with corrective action request

Comments: Develop a written procedure that highlights in the event that your business partners do not adhere to areas of the security requirements that are required, they must complete a corrective action plan (CAP/CAPA) or timeline to bring compliance up to date.

Reopen Comments: Please also describe timeframe given to business partners to make corrective actions and criteria for evidence demonstrating implementation in comments box, with implementation date provided.

Cyber and Information Technology Security

96%

- 19 None Does this facility have internet and computer network systems?
- Yes
 - No

Comments: *No comments were provided*

- 20 Must Does the facility have a comprehensive written cyber security policy to protect information technology systems? Is the policy reviewed and updated annually?
- Policy is written and was updated within the past 12 months
 - Policy is written and was updated within the past 12-18 months
 - Policy is written but last update was greater than 18 months ago
 - No written policy is available

Comments: *No comments were provided*

- 21 Must Does the facility have firewall and anti-malware software installed to identify, protect, detect, respond and recover their network? (Select all that apply)
- Firewall deployed
 - Anti-malware software installed
 - No firewall or anti-malware software deployed

Comments: It was noted that 1 sampled computer was not deployed the firewall.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: Document and deploy technology to protect, detect, respond, and recover from any cyber issues attempts.

- If you have already implemented, please describe in the comment section when and how you completed the corrective action or implemented the process. Please attach a photo of the process with the title and description of document.

- If you will implement, please provide your corrective action plan and the timeline (future date) for completion and implementation of the process in the comment section

CAPA Guidance: In the Comments Section

- Make sure to address firewall and malware software, and other automated systems, with automated updates

- Identify the software names, security uses, and implementation date

Comments section must include actions completed or to be taken. If attaching a document, please explain which page will be the start of your process.

CAUTION: Selecting option "Will not implement/ will not comply with corrective action request" is indicating that you acknowledge that your final score for this question will lose points and may be negatively viewed by SCAN Members.

- Already implemented
- Will implement
- Will not implement/ will not comply with corrective action request

[CT-12计算机安全... doc](#)

Comments: The IT specialist shall deploy a firewall on a sampled computer without a firewall, and stipulate that the firewall must be installed before the computer is put into use. At the same time, the safety manager of the administration Department is responsible for the inspection and supervision of the implementation of this policy.

Implementation date: 2024-5-21

Acceptance Comments: Accepted

- Already implemented
- Will implement
- Will not implement/ will not comply with corrective action request

[CT-12计算机安全... doc](#)

Comments: The organization's relevant personnel revise procedures to specify the requirements for installing firewalls and anti-malware software to identify, protect, detect, respond to, and recover its network.

Reopen Comments: The auditor's finding is "that 1 sampled computer was not deployed the firewall", please describe how you implemented and addressed the finding in the comments area, with date of implementation provided.

22 **Must** How frequently are updates performed on firewall and malware software?

- Software updates are automatically deployed from the software providers
- Manual updates installed by on site IT services as needed

No updating is performed

Comments: It was noted that updates were manually installed by on site IT services as needed.

23 **Must** Are test scenarios conducted to identify open ports and IP addresses that create vulnerable access to the internal network?

Vulnerability tests are conducted by IT personnel

No vulnerability tests are conducted

Comments: It was noted that no vulnerability tests were conducted.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: Include in your cybersecurity policy to implement test scenario's to identify cyber security risks.

- If you have already implemented, please describe in the comment section when and how you completed the corrective action or implemented the process. Please attach a photo of the process with the title and description of document.

- If you will implement, please provide your corrective action plan and the timeline (future date) for completion and implementation of the process in the comment section.

CAPA Guidance: The policy must include at a minimum: explanation of vulnerability tests; who conducts tests; frequency of tests; steps to resolve any gaps/vulnerabilities identified from testing.

Comments section must include actions completed or to be taken. If attaching a document, please explain which page will be the start of your process.

CAUTION: Selecting option "Will not implement/ will not comply with corrective action request" is indicating that you acknowledge that your final score for this question will lose points and may be negatively viewed by SCAN Members.

Comments: Organize relevant personnel to revise procedures and specify network security policies to implement test programs and identify network security risks.

Reopen Comments: Please describe who conducted tests, frequency of tests and steps to resolve any vulnerabilities identified from testing in comment box, with a recent vulnerability test date provided.

25 **Material** To whom does the facility report cybersecurity threats and attempts at unapproved access to network systems? (Select all that apply)

- Senior management
- Internal business partners
- External business partners
- Customers / suppliers
- Government agencies
- No reporting process and procedure in place

Comments: It was noted that factory did not report cybersecurity threat and attempts at unapproved access to network system to government agencies.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: This is a best practice. Please consider establishing developing a policy to report cyber security threats and unauthorized attempts at accessing your network systems to internal/external business partners, customers/suppliers, government agencies, etc.

If you have already implemented, please describe in the comment section when and how you completed the corrective action or implemented the process, and upload the photographic evidence of completion. Otherwise, please comment that you acknowledge your consideration of implementing this process in the future.

CAPA Guidance: The policy should include:

- how to report threats, attempted unauthorized access, and completed unauthorized access to facility's IT infrastructure and electronic data
- timing of reporting in relation to when the threat/attempt/completed unauthorized access occurred
- who to report attempts to, ex. Internal/external business partners, customers/suppliers, government agencies, etc.

- Already implemented
- Acknowledged - Will consider implementation in future

[CT-12计算机安全... doc](#)

Comments: 1、 Revise procedures for reporting cybersecurity threats and unauthorized attempts to access your network systems to internal/external business partners, customers/suppliers, government agencies, etc.

2、 Implementation Date: 2024-5-22

Acceptance Comments: Accepted

- Already implemented
- Acknowledged - Will consider implementation in future

Comments: Revise procedures for reporting cybersecurity threats and unauthorized attempts to access your network systems to internal/external business partners, customers/suppliers, government agencies, etc.

Reopen Comments: Please additionally add the implementation date in the comments area.

26 **Must** Are automated systems in place to monitor and prevent attempts of unauthorized access and tampering with systems and/or electronic data?

- Yes
 No

Comments: Individual account with passwords was in place to monitor and prevent attempts of unauthorized access.

27 **Must** Does management regularly review the employees with network access in order to restrict access to only those applications required to perform current job requirements?

- Management reviews monthly
 Management reviews quarterly
 Management reviews annually
 No management review conducted

Comments: *No comments were provided*

28 **Must** Is there a written procedure to remove network access for employees who are terminated or on leave longer than vacation?

- Yes, written process includes long term leave and terminated employee's access removal
 Yes, written process is available, but it does not include long term leave, only terminated employees access removal
 No written process was available for removing network access for terminated employees at the time of audit

Comments: *No comments were provided*

29 **Must** How is computer access managed at the factory? (Select all that apply)

- Passwords are required
 Passwords must be complex
 Passwords are changed periodically.
 No passwords are required

Comments: *No comments were provided*

30 **Must** If employees and/or contractors are permitted to access information technology (IT) systems remotely, is a virtual private network (VPN) or similar software used to control access?

- Remote access is permitted and VPN or similar software is used
 Remote access is permitted but no VPN or similar software is used to control access

Remote access is not permitted

Comments: It was noted that remote access was not permitted.

31 **Must** Do all security policies apply to personal devices that connect to the network?

- All security policies apply and the facility does not permit personal devices to connect to the network without using a VPN or similar software
- All security policies apply to personal devices
- Security policies do not apply to personal devices

Comments: It was noted that all security policies applied to personal devices.

32 **Material** Does IT security limit and monitor the downloading of software and access to external websites?

- Yes
- No

Comments: It was noted that the IT did not limit and monitor the downloading of software and access to external websites.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: This is a best practice. Please consider developing a policy limiting who and how external websites can be accessed and who is permitted to download software.

If you have already implemented, please describe in the comment section when and how you completed the corrective action or implemented the process, and upload the photographic evidence of completion. Otherwise, please comment that you acknowledge your consideration of implementing this process in the future.

CAPA Guidance: This policy must include at a minimum:

- monitoring access to external websites and downloading software
- criteria that limits access to external websites and downloading software

- Already implemented
- Acknowledged - Will consider implementation in future

[CT-13信息安全管... doc](#)

Comments: 1. Organize personnel to revise procedures and set requirements that restrict how computer users can access external websites and who is allowed to download software.

2. The company restricts the access of computer users to external websites, and the IT security manager monitors the access to external websites and downloads of software, and deals with the problems in time. When IT is necessary to access external websites and downloads of software, the user applies for the application, and after the approval of the security manager, the IT manager implements the access to external websites and downloads of software, and makes a good record.

Access to external websites and download software, must not affect the security, malicious transmission of bad information, to ensure the security of access to external websites and download software.

Implementation Date: 2024-5-22

Acceptance Comments: Accepted

- Already implemented
- Acknowledged - Will consider implementation in future

[CT-13信息安全管... doc](#)

Comments: Organize personnel to revise procedures and set requirements that restrict how computer users can access external websites and who is allowed to download software.

Reopen Comments: Please refer to our CAPA guidance to describe details of how you implemented the requirement in the comments area, with a date of implementation provided.

33 **Material** How frequently is data backed up for this facility?

- Data is backed up daily
- Data is backed up weekly
- Data is backed up monthly
- No data back ups are performed

Comments: It was noted that the data was backed up weekly.

34 **Material** Is the data backup stored offsite and encrypted? (Select all that apply)

- Data backup is stored offsite
- Data backup is encrypted
- Data is not stored offsite nor encrypted

Comments: It was noted that the data backup was not stored offsite.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

CAPA: This is a best practice. Please consider establishing a cybersecurity policy to include data backup is stored. If you have already implemented, please describe in the comment section when and how you completed the corrective action or implemented the process, and upload the photographic evidence of completion. Otherwise, please comment that you acknowledge your consideration of implementing this process in the future.

CAPA Guidance: The said policy should include:

- data backup located offsite from facility, such as cloud storage
- encrypted data

- Already implemented
- Acknowledged - Will consider implementation in future

[CT-13信息安全管... doc](#)

Comments: 1、 Organize relevant personnel to revise procedures to specify whether data backup is stored off-site and encrypted.

2、 The company stipulates that after the IT security specialist backs up the data, the data backup is stored in an office security cabinet in another office building, which is separate from the computer center, and the security

cabinet has a fire prevention function.

Implementation Date: 2024-5-22

Acceptance Comments: Accepted

- Already implemented
- Acknowledged - Will consider implementation in future

Comments: 1、 Organize relevant personnel to revise procedures to specify whether data backup is stored off-site and encrypted.

2、 The company stipulates that after the IT security specialist backs up the data, the data backup is stored in an office security cabinet in another office building, which is separate from the computer center, and the security cabinet has a fire prevention function.

Implementation Date: 2024-5-22

Reopen Comments: Please update your selection to "Acknowledged - Will consider implementation in future".

- Already implemented
- Acknowledged - Will consider implementation in future

[CT-13信息安全管... doc](#)

Comments: Organize relevant personnel to revise procedures to specify whether data backup is stored off-site and encrypted.

Reopen Comments: This should be taken into practice. Please describe how you implemented the requirement of "Data backup is stored offsite" in the comments area, with date of implementation provided.

35 **Must** Is there a written procedure to address returning equipment slated for disposal back to IT?

- Yes
- No

Comments: *No comments were provided*

Conveyances and Instruments of International Traffic

100%

36 **None** Does the facility load trailers/containers or Instruments of International Traffic (IIT)?

- Yes
- No

Comments: *No comments were provided*

37 **Critical** While in the facility's control are containers stored in a secured manner whether on-site or off-site? (Select all that apply) Please attach photo of each applicable area.

- Container/trailer storage area is free from personal vehicle parking and any other storage
- Container/trailer storage area is secured and/or monitored (please describe)
- Stored, loaded containers/trailers are secured with a seal
- Container/trailer storage does not meet minimum security requirements

[#37 Loading_area.jpg](#)

Comments: The loading area was monitored by the facility and with the physical segregation.

38 None Were you able to observe a container inspection in process or a previously completed container inspection via CCTV recordings?

- Yes
- No

Comments: *No comments were provided*

39 Critical Is there a written procedure in place to inspect the security integrity of a container or trailer prior to loading?

- Yes
- No

[#39 Procedure to in...jpg](#)

Comments: *No comments were provided*

40 Critical Is there a documented, comprehensive inspection of a trailer/container conducted prior to loading of the container? (Select all that apply)

- Checklist is utilized (please attach photo of checklist)
- Size of container notated
- Container number notated
- Name of person performing the inspections included on checklist
- Date and time of inspection notated
- Floor and roof of container intact no holes or leaks notated
- Outside walls free of damage notated
- Undercarriage checked for damage
- Inspection for invasive species (eggs nests, dirt seeds) included
- No inspections completed or documented

[#40 Container insp... jpg](#)

Comments: *No comments were provided*

41 Material Are photos and/or CCTV videos taken during the container/trailer loading process? (Select all that apply)

- Photos are captured
- Video is captured
- No visual documentation is recorded

[#41 Loading_photos.jpg](#)

Comments: No comments were provided

42 **Critical** Does the shipping area use equipment to conduct a 7-point container inspection? (Select all that apply) Please attach photo of all equipment used to conduct this container inspection.

- Measurement tool
- Mirrors for undercarriage
- Tap test tool
- Container Interior cleaning tool
- No tools available/tools do not meet requirements

[#42 Container insp... jpg](#)

Comments: No comments were provided

43 **Material** Are container inspections conducted in a secure area and in view of CCTV cameras? (Select all that apply)

- Trailer inspection area is visible on CCTV
- Inside of trailer/container is visible from tail to nose on CCTV
- Inspections are conducted in a secured area
- Inspections are not captured on CCTV nor in a secured area

Comments: No comments were provided

44 **Must** Does the facility maintain training records indicating which employees are trained to perform a 7-point container/trailer inspection?

- Yes
- No

Comments: No comments were provided

45 **Material** Is there a procedure where management or supervision conducts follow up inspections?

- Yes
- No

Comments: No comments were provided

46 **Material** Are container/trailer inspections supervised?

- Yes
- No

Comments: No comments were provided

47 **None** Does the facility directly contract transportation service providers for any of their customers or business partners?

- Yes

No

Comments: *No comments were provided*

48 **Material** Does the facility have a written procedure to require confirmation of arrival at destination (container yard or freight forwarder's location) for items shipped?

Yes

No

Comments: *No comments were provided*

49 **Material** What tracking technologies does the facility require to be used by the contracted transportation company to confirm cargo arrival?

GPS carrier controlled

GPS shipper controlled

Cell phone check by carrier dispatch

Cell phone confirmation by driver

Other

No tracking technologies used

Comments: Factory used cell phone confirmation by driver to tracking cargo.

50 **Material** Where possible, are transit routes from the facility to the port or next destination location randomly changed to minimize predictability?

Yes

No

Only one route is available

Comments: *No comments were provided*

51 **Material** Does the facility provide written instructions to transportation service drivers detailing that only required stops are permitted? (i.e. inspections by governmental agencies, refueling etc.)

Only select NA if this facility is strictly leveraging only small packages via consolidator carriers.

Yes

No

NA

Comments: *No comments were provided*

52 **Critical** Does the facility document driver information for arriving and departing material movements? (Select all that apply)

Driver log is maintained (please attach photo of driver log in use)

Tractor number listed

- Container/trailer number listed
- Photo ID required of drivers
- Carrier name
- Date
- Arrival Time
- Departure Time
- Seal verification information for container/trailer departure
- No driver log available

[#52 Container drive...jpg](#)

Comments: *No comments were provided*

53 None Does the facility ship less than container load (LCL)?

- Yes
- No

Comments: *No comments were provided*

54 Critical Does the written LCL security procedure exist that requires a LCL container or trailer to be sealed after each stop with either a tamper evident seal, a padlock or a high security seal?

- Yes (please attach photo of applicable section of procedure)
- No

[#54 LCL policy.jpg](#)

Comments: *No comments were provided*

55 None Does the facility make air shipments?

- Yes
- No

Comments: No air shipments was used.

57 None Does the facility make any shipments in open top, open sided, ventilated (livestock), soft sided containers?

- Yes
- No

Comments: No such shipment was used.

59 Critical Are international shipments sealed with an ISO 17712:2013 compliant high-security seal immediately after a container or trailer is loaded?

Only select NA if this facility is strictly leveraging only small packages via consolidator carriers.

- Yes (please attach photo of ISO approved seal utilized)

- No
- NA

Comments: No comments were provided

60 **Critical** Does the facility have written and verifiable procedures to ensure that security seals are controlled? (Select all that apply)

Only select NA if the seals are provided by a 3rd party such as a consolidator or carrier.

- Policy is written (please attach photo of applicable section of procedure)
- Seals are secured in storage
- Specific employees are listed who have access to seal storage
- No written policy is available
- NA

#60 Seal policy.jpg

Comments: No comments were provided

Agricultural Security

100%

61 **Material** Does the facility remove dirt and other debris from containers' exterior prior to loading?

Only select NA if this facility is strictly leveraging only small packages via consolidator carriers.

- Yes
- No
- Dirty or damaged containers are refused
- NA

Comments: No comments were provided

62 **Material** Does the facility have a procedure to inspect and review evidence of pest access such as baited traps, periodic extermination, and removal of debris from shipping and storage facilities?

- Yes
- No

Comments: No comments were provided

63 **Must** Is wood packaging material heat treated or fumigated to kill pests and limit the potential for introduction of pests at the container stuffing location? (Select all that apply)

Only select NA if the facility is not using wood packing material.

- Only heat treated or otherwise treated packaging material is utilized at this location
- Origins of all wood used in the manufacturing process is documented and provided to the receiver
- Factory cannot detail how wood packaging material is treated prior to utilization

NA

Comments: No wood packaging material was used.

64 **Must** Are wood products or materials utilized in the manufacturing or packaging process identified by source and species?

Only select NA if the facility is not using wood products or packing material.

Yes

No

NA

Comments: No wood products or materials were utilized in the manufacturing process.

65 **Must** Are wood pallets used in the shipping process heat treated or fumigated to kill pests and limit the possible introduction of pests at the loading facility? Are pallets stored inside the facility to limit the exposure to seeds, dirt and other forms of contamination? (Select all that apply)

Only select NA if the facility is not using wood pallets.

Pallets are heat treated or fumigated

Pallets are marked with a heat treated stamp or a Phytosanitary inspection certificate is issued with each pallet delivery

Pallets are stored inside the building

Pallets are observed stored outside and on the ground

Pallets are not heat treated nor fumigated

NA

Comments: *No comments were provided*

Seal Security

100%

66 **Critical** Are security seals stored in a secured location?

Only select NA if the seals are provided by a 3rd party such as consolidator carriers.

Yes (please attach photo of seal storage location)

No

NA

[#66 Seal storage ar...jpg](#)

Comments: *No comments were provided*

67 **Critical** Does the facility have documented test reports or statements from the seal vendor to validate that the seals utilized meet the most recent ISO 17712 criteria?

Only select NA if the seals are provided by a 3rd party such as consolidator carriers.

Yes (please attach photo of test report)

No

NA

68 **Must** Is there a procedure in place requiring management level personnel to conduct periodic audits of the seal inventory, seal log, and shipping documents and conveyances to validate that the seal controls are being followed. All steps must be documented. (Select all that apply)

Only select NA if this facility is strictly leveraging only small packages via consolidator carriers.

- A written procedure is available
- Audits are conducted
- Audits are documented
- No written procedure or practices are in place
- NA

Comments: It was noted that the audit were not conducted nor documented.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: Include in your seal security procedure that highlights management reviews the container/trailer sealing process to ensure that all steps are being completed properly.

- If you have already implemented, please describe in the comment section when and how you completed the corrective action or implemented the process. Please attach a photo of the process with the title and description of document.

- If you will implement, please provide your corrective action plan and the timeline (future date) for completion and implementation of the process in the comment section.

CAPA Guidance: Below listed should be covered at a minimum in the procedure:

- Facilities' managers must conduct regular audits of seal inventory, seal log, and shipping documents to ensure seal policy is followed

- Audits must be recorded in a log or other manner that captures the date, time, who conducted audit, audit findings, and any corrective action follow ups based on findings

Comments section must include actions completed or to be taken. If attaching a document, please explain which page will be the start of your process.

CAUTION: Selecting option "Will not implement/ will not comply with corrective action request" is indicating that you acknowledge that your final score for this question will lose points and may be negatively viewed by SCAN Members.

- Already implemented
- Will implement
- Will not implement/ will not comply with corrective action request

第六十六章 封条... .docx

Comments: The Plant Safety Manager is responsible for conducting regular audits of seal inventory, seal logs and shipping documents to ensure compliance with seal policies

The audit must be recorded in a log or form, recording the date and time. It is stipulated that the safety manager shall be responsible for the audit, and when the audit finds a problem, corrective measures shall be taken immediately to ensure that the problem does not occur again.

Implementation Date: 2024-5-22

Acceptance Comments: Accepted

73 **Critical** Is a written procedure in place that requires all information used in the shipping documents for merchandise/cargo to be legible, complete, and accurate?

- Yes (please attach photo of applicable section of procedure)
 No

Comments: It was noted that factory did not establish the procedure in place that requires all information used in the shipping documents for merchandise/cargo to be legible, complete, and accurate.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: Develop a written procedure to highlight how shipping documents are prepared and that these documents are completely legible and accurate.

Describe in the comment section when and how you completed the corrective action or implemented the process. Please attach a photo of the process with the title and description of document.

CAPA Guidance: The policy must include at a minimum:

- Identify who and/or what positions are in charge of creating and processing shipping documents
- Identify who and/or what positions review documents to ensure all necessary information is completed and accurate
- Access to shipping documents must be controlled/access restricted to only individuals who create, process, and use them
- If paper documents are used, facility must describe steps taken to secure them
- If electronic documents are used, facility must describe IT access controls
- Seal number(s) must be included on BOL
- Arriving and departing cargo and BOL reviewed to ensure information/contents are correct

Comments section must include actions completed or to be taken. If attaching a document, please explain which page will be the start of your process.

CAUTION: Selecting option "Will not implement/ will not comply with corrective action request" is indicating that you acknowledge that your final score for this question will lose points and may be negatively viewed by SCAN Members.

Comments: CCTV system run 24 hours per day 7 days per week

Reopen Comments: The auditor's finding is "factory only kept CCTV records on the audit day since 07:00am", please describe how you implemented and addressed the finding in the comments area, with date of implementation provided.

104 **Must** Is the facility's CCTV system recording at the highest quality picture setting available?

- Yes
- No

Comments: *No comments were provided*

105 **Must** Does the facility's management team conduct random and documented reviews of CCTV

footage periodically to ensure security procedures are being followed?

- Yes
- No

Comments: *No comments were provided*

106 **Critical** How many days are CCTV recordings kept?

- 90 or more days
- 45 - 89 days
- 30 - 44 days
- Less than 30 days
- Recordings not retained

Comments: It was noted that factory only kept CCTV records on the audit day.

107 **Must** Do employees display their ID badge at all times while at the facility?

- Yes
- IDs carried but not displayed
- No

Comments: *No comments were provided*

108 **Critical** Is a written procedure in place to require visitors to present photo identification upon arrival and have security or other authorized employee record their information in a log? (Select all that apply)

- Written procedure is available
- Photo ID are checked
- Visitor Log is utilized
- No written process is in place

[#108 Visitor log.jpg](#)

Comments: *No comments were provided*

109 **Must** Is a written procedure in place to inspect a visitor's bag before entering and leaving the manufacturing, production or shipping area of the facility?

- Yes
- No

Comments: It was noted that the auditor's bag was not checked before entering the factory.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: Include in your physical security procedure to inspect all bags and packages of all visitors entering and exiting your facility.

- If you have already implemented, please describe in the comment section when and how you completed the corrective action or implemented the process. Please attach a photo of the process with the title and description of

document.

- If you will implement, please provide your corrective action plan and the timeline (future date) for completion and implementation of the process in the comment section.

CAPA Guidance: All visitors' bags must be inspected upon arrival and exit.

Comments section must include actions completed or to be taken. If attaching a document, please explain which page will be the start of your process.

CAUTION: Selecting option "Will not implement/ will not comply with corrective action request" is indicating that you acknowledge that your final score for this question will lose points and may be negatively viewed by SCAN Members.

- Already implemented
- Will implement
- Will not implement/ will not comply with corrective action request

[第七十九章 敏感... docx](#)

Comments: Revise procedures to specify whether there are written procedures to check visitors' bags before entering and leaving the manufacturing, production, or shipping areas of the plant before visitors enter and leave the manufacturing, production or loading area of the factory, the safety officer is responsible for checking the visitor's bag with a metal detector to ensure that it meets the safety requirements. At the same time, the security manager is responsible for supervision and inspection to ensure that all visitors' bags are checked before entering the factory.

Implementation date: 2024-5-22

Acceptance Comments: Accepted

-
- Already implemented
 - Will implement
 - Will not implement/ will not comply with corrective action request

[第七十九章 敏感... docx](#)

Comments: Revise procedures to specify whether there are written procedures to check visitors' bags before entering and leaving the manufacturing, production, or shipping areas of the plant

Reopen Comments: Please describe how you corrected the issue of "the auditor's bag was not checked before entering the factory" raised by auditor and how you guaranteed it's implemented effectively in comment box, with date of implementation provided.

110 **Critical** Is a visitor issued a numbered visitor badge which is displayed or carried while at the facility?

- Yes (please attach photo of applicable item)
- No

[#110 Visitor badge.jpg](#)

Comments: *No comments were provided*

111 **Critical** Is a visitor escorted at all times while at the facility?

Yes

No

Comments: *No comments were provided*

112 **Material** Is a written procedure in place to inspect packages prior to distribution?

Yes

No

Comments: *No comments were provided*

113 **Material** Are hazardous materials or high value goods segregated when stored at the facility?

Only select NA if there are no high value or hazardous material items at the facility.

Yes

No

NA

Comments: *No comments were provided*

Personnel Security

100%

114 **Must** Does the facility have a written procedure in place to validate information provided on an employment application, such as an address, previous employment history, education, personal or professional references, and a certification? (Select all that apply)

Policy is written

Education check

Reference check

Previous employment check

Nothing in place

Comments: *No comments were provided*

115 **Must** Are permanent and temporary job applicant(s) required to submit a written application for employment and provide proof of their identity? (Select all that apply)

Written application required

Government issued ID required

Comments: *No comments were provided*

116 **Must** If allowed by local law, is a written procedure in place to perform a background check on an applicant and employee who works in a sensitive area of the facility, such as personnel, shipping, computer systems, or contract employees?

Only select NA if not allowed by local law.

- Yes, written procedure is in place
- No procedure is in place
- NA

Comments: *No comments were provided*

117 **Must** Which type of check is conducted? (Select all that apply)

- Criminal Check
- Credit Check
- Other

Comments: It was noted that credit check was not conducted.

Security Training & Threat Awareness

100%

118 **Must** Is a security threat awareness training provided to all new employees and an annual refresher course for current employees? (Select all that apply)

- Training program in place
- Training logs are kept to insure required personnel attend the training
- Management personnel randomly reviews documentation
- Training provided annually for all employees
- Training provided for new employees
- There is no Threat Awareness training in place

Comments: *No comments were provided*

119 **Must** Does security threat awareness training cover security-related issues?

- Yes
- No

Comments: *No comments were provided*

120 **Material** Is there an evaluation of understanding included at the end of a training session? (Select all that apply)

- Evaluations are conducted
- Retraining is required if a successful score is not achieved
- No evaluations are conducted

Comments: *No comments were provided*

121 **Must** Does the facility provide training to employees who conduct security and agricultural inspections? (Select all that apply)

- Training material lists specific requirements
- Training logs list employees working in this area
- Training provided annually for existing employees with this job function
- Training provided for new employees with this job function
- No training logs for this specific criteria
- No training material for this specific criteria

[#121 Security and a... jpg](#)

Comments: *No comments were provided*

122 **Must** Does training include security criteria for restricted areas of the facility such as final packing, shipping and receiving? (Select all that apply)

- Training material lists specific requirements
- Training logs list employees working in this area
- Training provided annually for existing employees with this job function
- Training provided for new employees with this job function
- No training logs for this specific criteria
- No training material for this specific criteria

[#122 Training recor... jpg](#)

Comments: *No comments were provided*

123 **Must** Does Threat Awareness training inform employees of procedures to report suspicious activity or a security incident?

- Yes
- No

Comments: *No comments were provided*

124 **Must** Does Threat Awareness training provide additional instruction to shipping and receiving employees regarding access controls, container and trailer inspection, and security seal control procedures? (Select all that apply)

- Training includes shipping & receiving controls
- Training includes how to conduct container/trailer inspections
- Training includes container/trailer sealing practices
- Training includes how to control seals
- No specific additional training is in place for shipping & receiving personnel

Comments: *No comments were provided*

125 **Must** Does the training program include Threat Awareness, Contraband, Human Smuggling and Terrorism?

- Yes
- No

Comments: It was noted that factory did not provide training include Contraband and Human Smuggling.

CAPA Assigned **2024/05/08** | Due Date **2024/07/07**

Included in scoring

CAPA: Develop a unique threat awareness training program specific to threat awareness.

- If you have already implemented, please describe in the comment section when and how you completed the corrective action or implemented the process. Please attach a photo of the process with the title and description of document.
- If you will implement, please provide your corrective action plan and the timeline (future date) for completion and implementation of the process in the comment section.

CAPA Guidance: The training must include at a minimum:

- Employees must also know how to identify and report security incidents
- Security incidents include: finding, reporting, and managing contraband, and identifying evidence of human smuggling
- Procedural security related to trade-based money laundering/terrorism financing.

You can review the section "Security Training and Threat Awareness" in the "SCAN Factory and Supplier Training" for some references and details when establishing this program.

Comments section must include actions completed or to be taken. If attaching a document, please explain which page will be the start of your process.

CAUTION: Selecting option "Will not implement/ will not comply with corrective action request" is indicating that you acknowledge that your final score for this question will lose points and may be negatively viewed by SCAN Members.

- Already implemented
- Will implement
- Will not implement/ will not comply with corrective action request

[威胁意识.jpg](#)

Comments: 1、 Amend the management procedures to require 4.1.8 to develop a unique threat awareness training program for threat awareness, including: threat awareness, contraband, human smuggling, and terrorism training.

2、 The security manager organizes the training of employees on contraband and human smuggling. Training content includes: threat awareness, contraband management, smuggling and terrorism control, trainers by security managers, training objects for the company responsible for security management personnel, implementation date: 2024-5-22

Acceptance Comments: Accepted

- Already implemented
- Will implement
- Will not implement/ will not comply with corrective action request

[反恐安全培训管理...doc](#)

Comments: Amend the management procedures to require 4.1.8 to develop a unique threat awareness training program for threat awareness, including: threat awareness, contraband, human smuggling, and terrorism training.

Reopen Comments: Please conduct the training of Contraband and Human Smuggling for employees, then describe your training record in detail including training content, trainer, trainee, training date and describe how you implemented in comment box.

126 **Material** Does the facility have a program to recognize an employee when reporting a security incident or recommending improvements?

Yes

No

Comments: *No comments were provided*

127 **Must** Does training include identifying pest contamination?

Yes

No

Comments: *No comments were provided*

128 **Must** Is there a documented training outlining the risks of Cybersecurity?

Yes

No

Comments: *No comments were provided*

Misc

NA

129 **None** Describe the front of the factory building including any signage. Please attach a picture.

No options available

[#129 Factory_main... jpg](#)

Comments: Factory was located at No.88 Zhenxing East Road, Lizhou Street, Yuyao, Zhejiang, China.

130 **None** Describe the guard station and facility access gates. Please attach a picture.

No options available

[#130 Security_guar... jpg](#)

Comments: The guard station was located near the main access gate. And the security guards monitored the gate for 24 hours per day, 7 days per week.

131 **None** Describe the buildings and structures for this location. Please attach a picture.

No options available

Comments: The factory consisted of one 4-storey office and production combined building and one 5-storey production building.

132 None Describe the shipping and receiving areas. Please attach a picture.
No options available

Comments: The shipping and receiving area was located outside one 4-storey office and production combined building with limited access.

133 None Describe how the perimeter of the facility is protected from unauthorized access? Please attach pictures
No options available

Comments: The facility used fence, walls and locks around the facility to prevent unauthorized access.

134 None Describe the final packaging area. Please attach a picture.
No options available

Comments: The final packaging area was in a separated area with access control.

135 None Describe any container storage and vehicle parking areas and please attach picture.
No options available

Comments: The vehicle parking area was separated from loading area.

136 None Did the Factory Representative and the Auditor sign the Opening Meeting Letter? Please attach the signed copy.

- Yes
- No

第七十九章 敏感区域与受控区域管理控制程序			
1. 目的			
清晰界定本厂的敏感区域，加强敏感区域的安全控制。			
2. 范围			
适用于本厂敏感区域的管理与控制。			
3. 职责			
3.1 安全经理界定全厂的敏感区域；			
3.2 保安人员负责维护敏感区域的安全与秩序管理；			
3.3 全厂各部门人员配合，并严格遵守敏感区域的管理制度。			
4. 程序			
4.1 受控区域、受控区域（敏感区域）是指根据美国海关要求受控并要求特别通行条件才能进入的区域。			
4.2 本厂敏感区域界定，本厂的受控区域有包装区域、成品仓及其它仓库、装货区、卸货区、监控中心、财务室等重要区域。			
4.3 重点或敏感区域的控制			
4.3.1 所有敏感区域出入口都应当授权，由安全经理提供授权人员名单，并经本厂最高管理人员签字盖章授权，该名单方可生效，授权人员名单必须每三个月重新授权更新。			
4.3.2 限制未经授权人员接近包装区、成品存放区、原材料存放区、半成品存放区、装卸货区、空/满柜存放区、电脑部（计算机及信息数据）、CCTV 监控中心及其它敏感性区域，工厂应在这些敏感区域张贴“限制区域，未经授权不得入内”和授权进入人员名单。			
4.3.3 本厂的包装、装配车间为敏感受控区域，在作业过程中，包装车间安排一名员工监控整个包装过程，包装车间有车间主管负责监控，确保货物在组装与包装的过程中的安全性，避免混入异物或者被恶意放入违禁物。			
4.3.4 生产部门人员未经允许不得相互窜部门及限制非包装/装运员工穿越该区域。外来考察、检查、验货等人员的进入都要有主管级别以上人员陪同下方可进入，填写《敏感区域来访人员登记表》。			
4.3.5 所有非重点部位的工作人员进入重点部位都需要进行登记，包括姓名、访客证编号、进出时间和事由，并详细记录。			
4.3.6 本厂工作证分为一般授权与特别授权，以颜色标识表示在重点区域工作。			
4.3.7 非工作时间员工进入工作区域应获得主管人员的批准。			
4.3.8 敏感区域或者受控区域授权进入人员，应当佩戴对应的不同的颜色的厂牌

标题	反恐安全程序文件	页次	第142页/共198页
4.4 生产工厂安全控制			
4.4.1 生产工厂内所领发的物料必须要有收发货单据，任何无单据物料不得在工厂内使用，对不明来料及无单据物料的进入必须要做好实时登记，严重的需向厂部汇报及调查。			
4.4.2 工厂内未经允许不准非生产部门人员进入，各部门人员非工作需要不得相互窜岗，外来考察、检查、验货等人员的进入都要有主管级别以上人员陪同下方可进入。			
4.4.3 要有安排保安人员从事包装区域内的监控工作，所有生产出的成品应实时送往成品区如发现成品箱打开应立即通知车间负责人，安排QC及时检查参照签办，检查合格方可摆入成品区，所有成品区都属限制进入区域。			
4.4.4 生产线主管和组长负责监督，阻止未经允许的人员进入包装区域及成品区域，如发现有不合法活动存在则立即报警。			
5. 相关文件			
《_____授权进入人员名单》			
《敏感区域来访人员登记表》

标题	反恐安全程序文件	页次	第119页/共198页
5.5 封箱			
5.5.1 当货柜上实时时，再次核对以上相关资料准确无误后，方可封箱。			
5.5.2 除海关封条外，必要时加装客户的封条或本厂的封条。			
5.5.3 整柜上封条并通知报关员跟进，运输途中的情况及与海关主管部门。			
5.5.4 散货：使用本工厂的货柜专用锁，锁好之后，将钥匙放入信封中加封，封口处为本厂的公章。或用专用本厂一次性封条加封。			
5.5.5 由相关操作人员或厂长加签相关单证并作相应备案。每装一个货柜必须保留： <ul style="list-style-type: none"> a) 报关单或装箱单——必须有保安监管人员签名 b) 承运方提单 c) 授权装卸人员名单——必须有货柜的起卸时间、中间休息时间、业务负责人员、列示所有装卸人员、值勤保安签字。 d) 将货柜拍照，即是：空柜时的照片、装好货物时的照片、装好货物封箱时的照片（含柜号）保存留底。必要时可随传相关部门（如客人、海关等）相关封条管理参见《集装箱封条加贴、更换、记录和追踪程序》 			
5.6 货柜暂停			
5.6.1 为方便管理原则上，凡办毕以上手续的货柜必须准时办理离厂手续并出厂，不得逗留。			
5.6.2 如有特殊情况，经厂长以上主管同意，且必须停放在指定区域，接受统一、安全的管控。			
5.6.3 如因意外停放的货柜车，并必须是在我方保安人员的实时监控下，门必须由我方人员加上本厂封条。			
5.6.4 已装货集装箱如非立即运走，必须存放在安全区域。未装货的集装箱必须以安全方式存放，有保安人员监管。			
5.7 出厂			
5.7.1 向值班保安交验相关负责人签核的《放行条》，并安全核查合格后，作相关记录后，方可离厂。			
5.7.2 保安人员在指定工作日将以上记录交人力资源部，转呈主管人员核实后存档。			
5.8 运输过程监督			
5.8.1 工厂指定安全管理人员(船务/保安/人事等)对货物运输车辆进行监督			
5.8.2 安全管理负责人使用电话跟踪或派专员(代表)跟随同卡司机，将货物运抵集运人			
5.8.3 专员跟随必须配移动电话			
5.8.4 货车在前往集运人的途中不得搭载其它厂商的货物。			
5.8.5 “押运”程序示例：如果没有代表押运货物并在卡东驾驶室同行，任何我司货物都不得运离厂房。工厂代表必须是保安人员或管理人员。工厂代表应配有通信设备（例如移动电话），在发生问题时应与工厂安全管理代表联系。			
宁波汇德隆五金有限公司编制		未经授权 不得复制	

宁波汇德隆五金有限公司		文件编号	HDL-FK-02
		版本号	B/0
标题	反恐安全程序文件	页次	第120页/共198页
5.8.6 “运输过程监控”程序示例：安全/管理人员必须与供应链下一环节联系，查询货物是否及时抵达，对货物运往该环节（机构）的过程进行监控，并将监控记录记录于《运输监控登记表》。			
5.8.7 防止在过程中可能发生破坏、调换、更改货物与货柜的事件发生			
5.8.8 合理预计运输所花费的时间，然后致电目的地（集运人或港口），查询货物的运输，并核实车辆是否已经到达。如果情况有所出入，货物延迟抵达，则须向海关查询延误原因，例如恶劣天气、交通阻塞、意外事故、机械故障等。			
5.8.9 安全监管员在离开集运人/航运工厂仓库返回工厂之前，应要求未装货的集装箱密封，核实封条（数目）与原来使用的封条（数目）相同。			
5.8.7 如有异常必须与工厂管理高层研究处理，必要时通报海关及安全机构或相关客户			
附一 海关电话：广州海关(020)81102000/上海海关 021-68890000			
附二 派出所电话：0574-62556627			
附三 工厂安全主任负责人电话：13586703456			
5.9 货物过剩及短缺处理程序			
5.9.1 在完成货品入仓之时必须严格填写《入库单》，在仓库管理员、移交方双方汇签，及QA部门进行品质检验确认后后方可入库。			
5.9.2 船务在出货前要计算好每一张定单的所需货柜数量，所需货柜尺寸、外箱尺寸、重量(净重、毛重)、箱唛并填制好相应的报关单。在出货之前提前5天核对产品及数量情况，并必须在每一板板货架上标明“1、货号/品名 2、POM 3、数量 4、出货日期等”。如发现短/溢货必需联系相关业务员并总是记录于《货物短溢异常处理登记表》，并作相应可靠的措施及追查原因。			
5.9.3 出货前，仓库管理人员必须提前3天依出货单核实货物与报关内容一致，再次核实货物没有短少、短溢货的情况，并通知QC员抽检全部货物(重点是对产品安全)。			
5.9.4 装柜当时，报关员或船务人员必须在现场核实与管理货物的入柜情况，保证完全依报关及客人要求装柜。			
5.9.5 核实确认与客人要求无误，方可封柜，并办理相关资料督促货柜出厂，以及与海关的联络。确保货物在我方的仓储、装运过程中都是安全的。			
5.9.6 如果货物出现短溢现象，必须通报安全管理代表，并由其组织安全管理委员会人员调查所有货物短溢原因，如已装柜货物有不安全可能，必须全部卸货检查，必要时保留开箱检验，待查所有不安全因素后方可重新装柜并在《货物短溢异常处理登记表》记录。			
5.9.7 对短溢货事故必须加强预防发生的可能性			
5.9.8 定期对相关人员（仓管、搬运工、报关员、船务业务等）进行教育培训。			
5.9.9 如果有缺货或者超额，必须调查原因，调查及其结果必须存档。

Security Training & Threat Awareness - Question # 121

宁波汇德隆五金有限公司
在职员工反恐培训签到表

培训项目：全体反恐培训		培训对象：公司全体管理人员及员工						
培训师：安全经理	培训时长：2小时	培训地点：	车间					
培训日期：2024-4-17	培训人数：							
培	1. 员工个人行为规范 向员工说明进出大门及在厂区内佩戴厂证的重要性，旨在有效控制非准许可进入本厂。工作时间内员工需离开厂区的需凭部门主任或主管签发的“放行条”离开，所有进出厂区人员的携带物品必须接受保安人员的安全检查，禁止易燃易爆品、违禁物等非准许可物料的进入，同时有效避免公司财产的流失							
训	2. 未经授权区域限制进入 教育员工非经准许，不得私自进入以下重要区域：货仓、成品仓、货物装卸区、运输区、危化品区、发电房、化学物品贮存区。油料库存房其他持有“危险”和“不准进入”的警示标志的区域。							
内	3. 识别内部阴谋和员工举报机制 公司鼓励与支持员工汇报任何恐怖活动及异常事物，对汇报属实的，视情节轻重给与相应奖励，并对举报人严格保密。如：密谋盗取公司的物料或成品货物；故意将成品调包；不能随意进行包装；不怀好意地将违禁物品放入成品包装箱等。							
容	4. 紧急事故应急措施 当有紧急情况发生时，在厂内生产的员工应立即向部门主管以及安全主任汇报；在生产区域的员工应立即向值班保安汇报							
	5. 维护产品完整性 培训员工在相应的岗位中应积极保护产品和货物，使其不受破坏和损坏；应确保产品和货物由获得授权的人员以适当的方式处理和储存。非授权人员不得进入人员管制货物存放区							
	6. 教育员工立足本职工作，爱岗敬业，保护公司财产，平时对自己所用到的工具和操作的机器设备按要求进行操作和维护。如发现异常或损坏应及时向主管报告，下班前整理好工作区，关好临近工作位的门窗。							
	7. 向所有员工通告我公司的反恐举报程序，紧急事件联络人名单和联系电话号码，鼓励全体员工和顾客、供应商举报有恐怖怀疑的现象。如：违反厂规的行为；状态异常、形迹可疑、拉帮结派现象；密谋内部阴谋，涉嫌参与不明组织，与外部勾结有恐怖倾向的

Security Training & Threat Awareness - Question # 122

宁波汇德隆五金有限公司
包装车间、仓库、装卸等人员反恐培训签到表

培训项目:	货仓安全工作指引、货物过刺和短缺处理程序、收货与发货安全管理程序	
培训讲师:	安全经理	培训对象: 包装人员、仓库人员、装卸人员
培训日期:	2024-2-27	培训地点: 会议室

培训内容:
1. 介绍包装人员在整个工作区域货物及反恐安全方面需要注意的问题及现场的规范操作;
